If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. In my review, the manuscript demonstrates a significant importance for the scientific community in the field of epidemiology of rheumatic heart disease in emergency department in Dakar: a descriptive study of 37 cases.</p> <p>2. The title of the article, (Epidemiology of rheumatic heart disease in emergency department in Dakar: a descriptive study of 37 cases) is suitably chosen. It provides a clear and concise overview of the article's main focus, which is epidemiology of rheumatic heart disease in emergency department in Dakar: a descriptive study of 37 cases.</p> <p>3. The subsections and structure of the manuscript appropriate.</p> <p>4. I think the manuscript is scientifically, correct</p> <p>5. I think there's need for the ethical approval as the patients file is a confidential document.</p> <p>6. I think need to use updated references, most of the references old</p> <p>7. Need to work more on the English language, I cant check it seems the original article written in French Language</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>
