Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><u>Compulsory</u> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, the manuscript is important for scientific community</p> <p>Yes, the title of the article is suitable</p> <p>Yes, the abstract of the article is comprehensive</p> <p>Yes. The author should classify the heading, sub-heading and sub-sub heading by adding numerical quotation.</p> <p>Yes, the manuscript is scientifically correct</p> <p>Yes, the references are sufficient The author need to check the guidelines given by the journal for reference section and modify accordingly.</p>	
<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Absolutely, the article's language and English quality are appropriate for scholarly communications. Grammar and sentence structure both require a little work. All in all, it meets the requirements.</p>	
<p><u>Optional/General</u> comments</p>	<p>In the introduction part, the author should include a brief explanation of climate change and how it impacts the agricultural sectors pertaining to the study area <i>i.e.</i> Gambia and West Africa as a whole. It is necessary to gather more information giving a factual background of the study field, a problem that is clearly stated, a solution that has been provided, and the scope and justification of the work done.</p> <p>The "review of literature" portion should be avoided, and the author is urged to adhere to the guidelines provided on the journal website. It is important to modify while following the journal's requirements.</p> <p>A few grammatical errors were discovered and fixed, but the author still needs to double-check.</p> <p>Subtle improvement in discussion part is needed, where it lacks proper citation to support your research findings.</p> <p>The author should follow the appropriate citation format and references style as given in the journal guidelines.</p> <p>Table 4,6 and 7 format, font style and size is not correct please modify accordingly. The whole manuscript's fonts differ in size and style from one another; please make the necessary adjustments.</p> <p>The author need to check the guidelines given by the journal for reference section and change accordingly. Some of the citation and reference are missing and also not matching. Please check and make due corrections.</p>	

Review Form 1.7

	Where necessary corrections are indicated and remarked upon, the author must review the remarks and make the appropriate corrections. Overall the article is satisfactory.
