

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_109929
Title of the Manuscript:	Evaluating Soil Erosion through Geospatial Techniques: Difficulties and Prospects in the Context of the Central Indian Chambal River Basin
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- The manuscript is considered one of the very important topics in the world of engineering.</p> <p>2- I suggest changing the title according to the following: (Soil erosion estimation through GIS: difficulties and prospects in the context of the Chambal River Basin in central India).</p> <p>3- Please provide more details in the summary, including what I wrote in the last paragraph in the comments on the manuscript: (Please rephrase this section, detailing the reasons why it was higher, and providing more detailed results from the summary).</p> <p>4- I suggest that the "study area" be clarified with a special title in paragraph No. 2 after the introduction, as was explained in the comments.</p> <p>5- Yes, the manuscript is scientifically correct, but it lacks more details and results.</p> <p>6- The link to each reference must be mentioned, so that it is easily accessible by all researchers.</p> <p>7- The slope map of the study area must be mentioned because it is important in the spatial distribution of soil erosion.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language must be taken care of in English grammar more.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
