

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_110230
Title of the Manuscript:	Effect of tillage and precision nitrogen management practices on N uptake and Nutrient Use Efficiency (NUE) in wheat in western UP
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. The manuscript is important in its content and approach, and I believe it is relevant to the scientific community. 2. The title contains an unexplained abbreviation and needs to be changed. Alternative: Effect of tillage and precision nitrogen management practices on N uptake and Nutrient Use Efficiency (NUE) in wheat in western Uttar Pradesh 3. The abstract of the article comprehensive. But contains several unexplained abbreviations (LCC, SPAD). When abbreviations firstly introduced to the text it should be explained. 4. Field preparation, tillage system definitions parts should be under the MATERIAL AND METHODS section. 5. The manuscript is scientifically correct. 6. The references sufficient and recent. 7. MATERIAL AND METHODS section contains unexplained abbreviations. 8. At the 1. Reduced- tillage (RW) definition part, it is mentioned that some tillage per se practices under this reduced tillage system. This should be defined or added assumptions and limitations part (should be created). 9. References to the tables should be given inside text. 10. At the conclusion part according to the manuscript content N, P and K results should differentiated. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
