

Review Form 1.7

Journal Name:	International Research Journal of Oncology
Manuscript Number:	Ms_IRJO_109384
Title of the Manuscript:	Human Homeobox Genes in Development and Cancer
Type of the Article	Review Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, the manuscript written satisfactorily.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>1. Check the abbreviations throughout the manuscript and introduce the abbreviation when the full word appears the first time in the abstract and the remaining for the text and then use only the abbreviation (For example, homeobox (HOX), hematopoietic Stem Cells (HSCs), neural stem cells (NSCs), mesenchymal stem cells (MSCs), etc.). Make a word abbreviated in the article that is repeated at least three times in the text, not all words to be abbreviated.</p> <p>2. The literature search should be described in detail. The authors are encouraged to include the database, search engines (like PubMed, ScienceDirect, Google scholar etc.), the keywords used etc., which may be included since it is a review article. A diagram depicted the literature search should be included.</p> <p>3. The introduction part appears less informative about cancer, thus this section should be indicated as detailed to understand the manuscript in clear since the main objectives is focused on cancer.</p> <p>4. In introduction, the authors may cite recent prevalence or incidence data for cancer and it should be at-least of 2022 or 2023.</p> <p>5. The initial cited with reference in the text should be removed and should be in the author instruction of the journal (For example, "Gutmacher, A. E. (1993)") and it should also be checked all over the manuscript.</p> <p>7. The limitation of the present review may be given along with conclusion or under separate heading for understanding the concepts clearly.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. There are some grammatical, alignment and typographical errors are noted in the manuscript and it should be thoroughly checked and corrected throughout the manuscript. For example, the words "are found" maybe as "is are"; "syndrome(ABDS)" as "syndrome (ABDS)"; "ABDS(homozygous c.76CNT)" as "ABDS (homozygous c.76CNT)"; "syndrome(HFGS)" as "syndrome (HFGS)". The grammar mistakes an typos which are not mentioned here are also to be checked and corrected properly.</p>	

Review Form 1.7

Optional/General comments	The authors have put effort to evaluate the "Human Homeobox Genes in Development and Cancer". The authors describe the review undertaken with this in an organized manner, emphasizing the review obtained by them. The article needs modification for better cohesion of information to achieve the goal and the shortcomings which need to be considered.
