

Editor's Comment:

I reviewed the manuscript. This manuscript needs some revisions.

The title should be more informative.

Although this patient is an adult, he has neck tumor since childhood. So, I do not think this is rare.

What is the cause of rapid growth? The mechanism was not fully explained.

There are many typographical errors.

Editor's Details:

Dr. Yasushi Shibata
Professor, Mito Medical Center, University of Tsukuba, Japan.
