(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>The title is suitable but "A Questionnaire Study" can be added in the end.</p> <p>The abstract is structured properly.</p> <p>Yes</p> <p>Yes</p> <p>Recent articles have been included</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Check for grammer and English quality once again</p>	
<p>Optional/General comments</p>	<p>In the results section, either before the table or after it, the author should explain in detail the findings of the table.</p> <p>Also, in the end where the author has shown the questionnaire, point (8) and (9) does no not have an option of 'Neutral'. While in the results, Table 3 and Table 4 have Neutral as an option. Why this discrepancy??</p> <p>In discussion, the results should be discussed with proper references. In the 3rd paragraph of discussion, the author has discussed 7 factors affecting orthodontic treatment duration which is not required. Please remove it or make it concise.</p>
