(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This article is important for the scientific community because it evaluate the competencies of the stakeholders of the built environment. The selected indicators are necessary required qualitative features of the consultants.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Ok</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Acceptable, few repetitive words can be written in short form like quality of life (QOL).</p>	
<p>Optional/General comments</p>	<p>In literature review only "Impact of Construction on the Environment" is informed. The inclusion of social and economic aspect will enrich the content.</p> <p>Further, if the identified indicators of competencies will be clubbed or part of some group of domain/dimensions then it will give more clarity about the required competencies.</p> <p>Clarity over limitations of the study and scope for future research will enhance the conclusion part.</p> <p>The above comments may be incorporated. It's optional.</p> <p>Overall, the study is good and it is recommended for the consideration.</p>
