

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_110168
Title of the Manuscript:	Effect of enriched organic compost and foliar nutrition on growth and yield of Ragi
Type of the Article	research

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. A good research work has been done and it is useful for the scientific community, especially for the region. 2. Yes, it is suitable - just give the scientific name of the plant. 3. No, Before announcing the results, summarize the research materials and methods. For example the factors you measured. 4. Yes 5. No, there are some comments in the text of the article that should be completed, especially the physical and chemical characteristics of the used soil conditioners! 6. It would be better to use more recent references in the discussion section. <ul style="list-style-type: none"> • Scientific discussion of the results and comparison with the findings of others is weak. • The consumption amounts of these solutions for foliar spraying and the amount of enriched organic fertilizer were obtained on what basis - bring a reference • Where did the bacteria come from? Basically, it should be stated! 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	It is relatively suitable	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> • At this time, some characteristics of enriched organic fertilizers were measured, such as the amount of nitrogen, phosphorus, and potassium, and the amount of organic carbon, salinity, etc. • The time of planting seeds - the time of transplanting (month and day) should be stated • The length of the millet growth cycle and the length of the test period should be stated • The harvest date should be stated 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
