<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Of course, in this era of environmental stress, the productivity performance of plants becomes very critical. Thus I must say that it has some crucial significance where the productivity was measured in the presence of elevated CO₂ condition.</p> <p>2. Yes, title is absolutely justifying the research work done.</p> <p>3. Yes</p> <p>4. Literature is oaky but I found if one more column is added in the tables representing serial number of treatments, then it will look more descent upon publication.</p> <p>5. Yes, perfect.</p> <p>6. Yes, need to add some latest references. I can see only one reference is given in the introduction section. If possible, kindly cite some latest findings.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>I found some minor issues where spacing is not proper (two words are either not separated or two words are separated by double space). Authors may thoroughly check these small issues.</p>	
<p>Optional/General comments</p>	<p>NA</p>
