

**Editor's Comment:**

I have gone through the comments of the reviewers as well as the manuscript. This original research article is quite informative. I appreciate the authors highlighting the beneficial effect in lowering the high cholesterol in rat models. The manuscript is well-structured and quite informative. They have found out that the red Rubusidaeus extract has a role in lowering the triglyceride and cholesterol. The statistical analysis is done well.

The decision for this original research article : Accepted.
