

Review Form 1.7

Journal Name:	Journal of Advances in Microbiology
Manuscript Number:	Ms_JAMB_109595
Title of the Manuscript:	Genetic and phenotypic characterization of Polyhydroxyalkanoate producing bacterial isolates from hypersaline water body, Atlantic Ocean, Nigeria
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Abstract Aim : to comapre , why this comparison ? today the identification phenotypic method is unreliable write study design not sturdy design</p> <p>Results Figures 1 – 4 must be below the comments : imporve the comments</p> <p>This study would be focused only on genetic characterization because the phenotypic method isunreliable</p> <p>Suggestion Title Identification of Polyhydroxyalkanoate producing bacterial isolates from hypersaline water body, Atlantic Ocean, Nigeria</p> <p>Isolation of bacteria Screening of bacteria strains producing Polyhydroxyalkanoate Identification of selected bacteria : PCR and sequencing after bast deposit the sequences in NCBI database</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>	The study is very interesting but the manuscript must be rewrite	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
