<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p> <p>This article will get more focus Internationally if some comparative data is represented and analysed with respect to Indian context.</p> <p>This article focussed on the promising issue of climate change and its effect on food productivity and also suggests some Measures to counter the effect scientifically. It will be good if more data on International basis be represented and analysed with some statistical calculations. Also the author can focus on Economical issues in relation to the effect of climate change on food productivity.</p>
