<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. The authors have done a good job to analyse the effect of antioxidant on RBC parameters on smoker and asthmatic. There are five groups, each group consists of five subjects. Subjects have been followed up and RBC parameters was measured at different time points.</p> <p>2. EFFECTS OF VITAMIN C AND E ON Certain RED BLOOD CELL PARAMETERS: A study on MALE UNDERGRADUATE ASTHMATIC OF the UNIVERSITY OF PORTHARCOURT</p> <p>3. Abstract OK.</p> <p>4. Sample size in each group is only FIVE. Comparison of drug effect based on only five sample size is not adequate. Moreover, sample calculation has not been given.</p> <p>5. Authors didn't mention the duration of asthma and the current treatment they are receiving. Asthmatic medication can also alter the result of the study! How did authors solve this problem?</p> <p>6. Some of the references are not recent. Please try to change reference number 6,9,12. All references should be in correct format. In some DOI has been given but not in all. Please correct according to journal guideline.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Significant improvement of language is needed. In methodology section, language is not very clear.</p>	
<p>Optional/General comments</p>	<p>Increasing the sample size in each group is the most appropriate method to check the effect of vitamin C and vitamin E</p>
