

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_109814
Title of the Manuscript:	Impacts of the COVID-19 Pandemic on Commodity, Service, Manufacturing, and Education Sectors: A Comprehensive Analysis with a Focus on African Countries
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Review:</p> <ol style="list-style-type: none"> Clarity of Research Objectives: <ul style="list-style-type: none"> - "The research abstract is well-defined, providing a clear focus on the impacts of the COVID-19 pandemic on commodity, service, Manufacturing, and education sectors in African countries." - "Consider refining the objectives to explicitly outline the expected contributions of the study to the existing literature on this subject." Methodology: <ul style="list-style-type: none"> - "The methodology is robust, but it would be beneficial to elaborate on the specific data sources and analytical tools used for a more comprehensive understanding." - "Consider providing more details on the sampling strategy and data collection methods to enhance the reproducibility of the study." <p>In section 3.1 please define the variables used in function in equation number 1 to 6 and from equation 11 to 15.</p> <ol style="list-style-type: none"> Data Analysis and Results: <ul style="list-style-type: none"> - "The analysis of the data is thorough, but it would be helpful to include statistical measures or visual representations to support the presented findings in section 4.2." - "Consider discussing any limitations or potential biases that might affect the interpretation of the results." Discussion and Conclusion: <ul style="list-style-type: none"> - "The discussion is insightful; however, connecting the findings back to the research objectives more explicitly would enhance the overall coherence of the paper." - "Consider discussing the practical implications of the findings and potential avenues for future research in more detail." Language and Presentation: <ul style="list-style-type: none"> - "The manuscript is generally well-written, but there are a few instances where sentence structures could be clarified for better readability." - "Ensure consistency in terminology and check for any typographical errors throughout the manuscript." References: <ul style="list-style-type: none"> - "The references are comprehensive; however, there are a few instances where the citation format could be standardized for uniformity." 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
