

Review Form 1.7

| | |
|--------------------------|---|
| Journal Name: | International Journal of Environment and Climate Change |
| Manuscript Number: | Ms_IJECC_110018 |
| Title of the Manuscript: | Effect of integrated nutrient management on seed yield, quality and economics of seed production in Lucerne during rabi season |
| Type of the Article | Original Research Article |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|--|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>Yes,the artcle is important for the scientific community</p> <p>In the title it should be added rabi seasons, because to make conclusions and especially recommendations only for one season isn't enough.</p> <p>The abstract is referring only to seed yield,quality and economic,without taking in consideration the influence of different systems of soil fertilization on soil fertility.In the Introduction the author(s) is writing about the negative role of high rates of mineral fertilizers and the necessity to apply a balanced system of organic and mineral fertilisers.A sustainable development is possible only if to take in consideration the influence of such a system of fertilization on soil organic matter as an integral index of soil fertility. In the list of reference should be added some sources regarding the influence on soil fertility.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>The language is suitable and can be easier undertood.</p> | |
| <p>Optional/General comments</p> | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|--|
| <p>Are there ethical issues in this manuscript?</p> | <p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> | |
