

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_110446
Title of the Manuscript:	Management of Sesame Phyllody: A Destructive Disease of East- Central Rajasthan
Type of the Article	Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes, the manuscript is important for the scientific community since there is limited information on this disease. The manuscript contains information on the management of phyllody disease through pesticides and a resistant variety.</p> <p>2. Yes</p> <p>3. Yes and please include the location, year, list of treatments, and conclusion of the study.</p> <p>4. No</p> <p>5. Yes, but the way of organizing the manuscript needs re-organizing.</p> <p>6. The references are not sufficient, please add the earlier agree/disagree findings for all your recent finding results and you can increase the reference part.</p> <p>7. The problem statement and objective are not specified in the manuscript.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, but it needs minor modification</p>	
<p>Optional/General comments</p>	<p>The manuscript is important due to the results it contains like the information on phyllody disease management through spraying insecticides, bio-pesticides, antibiotics, and developing resistant varieties. The information on the phyllody disease is limited and it serves the researchers, and producers as an additional alternative way of management information. The whole manuscript needs minor modifications in the way of putting subsections and structures, correlating and discussing the result with the earlier result findings, grammar usage, etc....</p>
