If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <ol style="list-style-type: none"> Important research is carried out to improve the health of the population in slum settlements, which are still large in number The title is clear and interesting, but too long. It needs to be shorter but still interesting Alternative title : URBAN SLUMS MORBIDITY SPECTRUM : A CROSS SECTIONAL STUDY ON KOROGOCHO SLUM, KENYA The abstract already explains several aspects, but there needs to be additional explanatory sentences The text structure and subsections are complete. Peru has additional explanations in it to make it more complete The research has used correct scientific principles with steps that have been carried out with references. The references used have used the latest references (last 5 years). There are those who still use the 2017 reference, but not too many. There needs to be additional references to strengthen the discussion. | |
| <p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? | <ol style="list-style-type: none"> The English used is good, but can be improved further to avoid grammatical errors. | |
| <p>Optional/General comments</p> | | |
