<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. It is very important because the production of this crop is declining because of this fungus.</p> <p>2. Yes it is suitable</p> <p>3. It needs some additional sentences in justifying the research and stating the problem. And also please show the methodology clearly.</p> <p>4. Appropriate</p> <p>5. It is scientifically correct but it lacks scientific or systematic ways of expressing the discussion. And also your paper do not state the objectives, type of statistical methods that you have used and some times you must show your results in the form of graphs.</p> <p>6. I think they are enough.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes but it should avoid repeating ideas as I have tried shown in the manuscript. The paper needs more works in the introduction and result and discussion parts.</p>	
<p>Optional/General comments</p>
