If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> It is important for scientific community who are working on indigenous knowledge and organic farming. Yes, but for more clarity it needs a little modification as suggested on the manuscript. Abstract tried to touches most of the manuscript sections. However, it should include the conclusion of the finding. The section and the structure of the manuscript are good. However, the conclusion section needs major revision as suggested in the manuscript. The manuscript is scientifically correct, but the statistical analysis and cost benefit ration analysis are not clear. It also needs proof reading for a better clarity. It is better if some updated references are included in the introduction and discussion sections. Moreover, all citations in the text must match in the list of references. Please follow the template and guideline of the Journal. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>-Redundancy of expression should be checked and revised.</p> <p>-As indicated on the manuscript, there are also some incorrect and/or incomplete sentences, which need to be corrected.</p>	
<p>Optional/General comments</p>
