	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><u>Compulsory</u> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, it is very important to the scientific community. Because the herbal extract is considered a natural, nontoxic substance, it has an important benefit in the medical field.</p> <p>Yes, the title of the article is suitable.</p> <p>The abstract needs improvement to provide a clear view of the aims, methods, results, and conclusions.</p> <p>No, the subsections and structure of the manuscript aren't appropriate. The introduction and material are too long. It should be concise, and more motivation for the introduction should be added.</p> <p>Yes, but we need more improvement in language.</p> <p>Yes, references are sufficient and recent.</p>	
<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The manuscript need to revise by an English professional.</p>	
<p><u>Optional/General</u> comments</p>	<ul style="list-style-type: none"> • The introduction and material sections are too tall; more background and motivation should be added to the introduction. • Drops extracted from the L.S. need more toxicity studies. • The language needs to be checked by an English professional.
