

## Review Form 1.7

Journal Name:	International Journal of Research and Reports in Hematology
Manuscript Number:	Ms_IJR2H_110246
Title of the Manuscript:	Effect of Allium sativum (Garlic) Extract on Hematological Parameters in Diabetes-Induced Male Wistar Albino Rats.
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes. Garlic like many other plants has different bioactive compounds responsible for its bioactive properties and these bioactive compounds positively affect overall health. Garlic has been used for flavoring food and as a spice but, it also has several health benefits as well. Since the study explores the effect of garlic extract on hematological levels in induced diabetes it may help in understanding how garlic can improve blood profile in diseased conditions as different reasons are also mentioned in the manuscript.</p> <p>Yes</p> <p>Yes. But require some changes mentioned in optional/general comments.</p> <p>Yes</p> <p>Dosage is not defined in the manuscript.</p> <p>Yes</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes. However, there are some spelling and grammar mistakes which have been highlighted in the manuscript. Different spellings have been for the same words and are different than the ones mentioned in the title.</p>	
<p><b>Optional/General</b> comments</p>	<p>The dosage of garlic extract used is not defined. References or source is not given for a few paragraphs and dosage preparation. Mention clearly in the abstract which group is control group.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p>
