Manuscript Number:	Ms_AJMPCP_110617
Title of the Manuscript:	Knowledge, Attitude and Practices Regarding Tuberculosis among Physicians and Nurses at Al Kuwaifiya Specialized Teaching Hospital for Chest and Tuberculosis in Benghazi.
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li>3. <b>Is the abstract of the article comprehensive?</b></li> <li>4. <b>Are subsections and structure of the manuscript appropriate?</b></li> <li>5. <b>Do you think the manuscript is scientifically correct?</b></li> <li>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> <li>1. <b>Importance for Scientific Community:</b> The manuscript addresses an important topic in public health, specifically the knowledge, attitude, and practices (KAP) of healthcare workers regarding tuberculosis (TB) control at Al Kuwaifiya Specialized Teaching Hospital. It provides valuable insights into areas needing improvement in TB control measures within healthcare settings, which is crucial for global TB eradication efforts.</li> <li>2. <b>Title Suitability:</b> The title is appropriate as it succinctly summarizes the study's main focus. However, it could be more engaging if it highlighted the key findings or implications. Suggested alternative: "Assessing Tuberculosis Control Knowledge and Practices among Healthcare Workers in Benghazi: A Crucial Step towards Infection Control."</li> <li>3. <b>Abstract Comprehensiveness:</b> The abstract provides a clear overview of the study, including its background, methodology, key results, and conclusion. It effectively summarizes the study, allowing readers to quickly grasp its significance.</li> <li>4. <b>Subsections and Structure:</b> The manuscript is well-structured with clear subsections that logically flow from the introduction to the conclusion. The methodology, results, discussion, and conclusion are well-delineated, facilitating easy comprehension.</li> <li>5. <b>Scientific Accuracy:</b> The study appears scientifically sound, with a clear methodology and appropriate statistical analysis. The results are presented in a clear and understandable manner, and the conclusions drawn are supported by the data.</li> <li>6. <b>References:</b> The references are sufficient and relevant, indicating a comprehensive review of existing literature. However, including more recent studies (post-2023) could further strengthen the manuscript.</li> </ol>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	<ol style="list-style-type: none"> <li>1. <b>Language Quality:</b> The language is generally clear and suitable for scholarly communication. Minor grammatical and syntax corrections would enhance its readability.</li> </ol>	
<p><b>Optional/General</b> comments</p>	<ul style="list-style-type: none"> <li>Consider including a section discussing the implications of the study for TB control policies in healthcare settings.</li> </ul>
