<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, Working on HIV is need of time and especially the young age (Puberty level) analysis is impressive.</p> <p>2. I think title should be self explanatory and this title not needs to change.</p> <p>3. Yes, Abstract is comprehensive.</p> <p>4. All the subsection are well structured and I don't think it need to be changed.</p> <p>5. Well, measuring scientific correction needs the Analysis File too, but the tests used in this Script are sufficient to make it a valid scientific research.</p> <p>6. References are latest and from well esteemed papers.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The Language quality is more than satisfaction and vocabulary is good.</p>	
<p>Optional/General comments</p>	<p>Apart from all these questions about review, I want to appretoate the topic selection for the research. These types of hidden issues want to be addressed and should be solely encouraged.</p>
