

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_110497
Title of the Manuscript:	Performance of graded doses of fertilizers and varieties on growth, yield and quality of Black gram (Vigna mungo L.)
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. This article provides important information about the composition of NPK fertilizer for Black gram cultivation. The composition of NPK 20:20:20 is the best NPK fertilizer. Black gram varieties have different adaptability, so that varieties are suitable for cultivation in specific locations.</p> <p>2. The title of the article is appropriate, but the writing is adjusted to th template</p> <p>3. Abstract is complete</p> <p>4. The structure of the manuscript needs improvement in the research methods section so that it is adapted to the template</p> <p>5. The manuscript is in accordance with scientific principles</p> <p>6. References need to be added, especially those related to the role of NPK in the formation of photosynthesis and the adaptability of each variety</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>The article needs additional discussion about the role of NPK in forming protein or dry matter. The materials and methods sections need to be classified according to the format. The figure need to be classified according to the same units, so that the figure have units.</p>
