

Review Form 1.7

Journal Name:	Asian Journal of Case Reports in Surgery
Manuscript Number:	Ms_AJCRS_110132
Title of the Manuscript:	Testicular Torsion: Case Report & Literature Review
Type of the Article	Case study

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. The manuscript currently submitted lacks any new information or a systematic review. It is a case report that only covers the first medical presentation to the first postoperative day. 2. Systematic review would have been more suitable. 3. The manuscript does not mention the literature review, and it fails to engage the readers. Thus, it needs significant improvements. 4. We suggest adding a follow-up section to the manuscript, as it is essential to provide additional information on the patient's outcome. 5. It is important to include time ranges instead of specific dates/hours in this case report for better readability. 6. We recommend the authors review the following articles: 1) 10.31744/einstein_journal/2023AO0238; 2) Kwenda EP, Locke RA, DeMarco RT, Bayne CE. Impact of hospital transfer on testicular torsion outcomes: a systematic review and meta-analysis. J Pediatr Urol. 2021;17(3):293.e1-8. 7. Having the patient's picture requires informed consent and local ethical approval. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>The quality of the English used in the text needs improvement. Additionally, the reference number is not clearly mentioned in the given text.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
