<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	<p>Yes, but the Author should rectify all the grammatical errors all over the article, making use of punctuation marks where it is necessary and appropriate.</p>	
<p><b>Optional/General</b> comments</p>	<p>-This research is under Agricultural Geography: I suggest that; under the abstract, the Author should write keywords such as Fungiculture, Impact, and India (Regions where Fungiculture is practice).</p> <p>-The Author should be concise where there is mushroom production in India (Regions) in this article.</p> <p>-Wrong citations, and nine references are focused on work done in India, except one in South Africa. References too scanty and lack of scientific evidence on Fungiculture or Mushroom production in other parts of the world like Americas, Europe and Africa.</p> <p>For instance and Right approach for citations:</p> <ol style="list-style-type: none"> <li>1).
