

Review Form 1.7

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_109654
Title of the Manuscript:	Some fixed point techniques using ψ-contraction mapping on the C^*-algebra valued metric space
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. In this paper authors generalized the concept of Banach fixed theorem in C^*-algebra valued metric space and provided related definitions.</p> <p>2. The title of the paper looks fine</p> <p>3. The abstract the manuscript needs to more comprehensive and research gap, methodology, and applications must be included to make abstract more attractive and clear</p> <p>4. Yes looks fine and appropriate</p> <p>5. Yes proofs of each theorem is given correctly</p> <p>6. Most recent references related to this work must be included</p> <p>Over all manuscript looks fine and recommended for publication subject to incorporating all comments and suggestions properly</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are grammatical and typos, which are highlighted in pdf and needed to be revised accordingly</p>	
<p>Optional/General comments</p>	<p>Over all manuscript is good</p> <p>Some fixed point techniques using ψ-contraction mapping on the C^*-algebra valued metric space</p> <p>In this paper, the authors studied some fixed point theorems using ψ-contraction mapping on the C^*-algebra valued metric space. They proved Banach fixed point theorem and their extensions in C^*-algebra valued metric space. The application of the contractive mapping theorem on C^*-algebra valued metric space is also given.</p> <p>The paper is interesting, though rather technical. The results are clearly stated and the proofs appear correct. But, there is need of some minor corrections of typos. All grammatical and typos are highlighted in Pdf with comments and needed to be revised accordingly.</p> <p>I recommend this manuscript for publication in this journal after suggested corrections highlighted in the pdf.</p>
