

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_109044
Title of the Manuscript:	ANALYSIS OF PHYSICAL, CHEMICAL AND BIOLOGICAL CHARACTERISTICS OF BOREHOLE WATER IN AWKA, AWKA SOUTH LGA, ANAMBRA STATE, NIGERIA.
Type of the Article	Short Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ul style="list-style-type: none"> Abstract The abstract is very rich and gives precise information on the study carried out. But it is poorly written. We should not see sub-chapter titles (such as Place and duration of Study, Methodology, results and conclusion), everything must be linked by sentences in a judicious way. This part must be repeated. Document structure The structure of the study report respects the standards of a published scientific article. But in "Results" there is only a table while all the results figures are located in discussion. The figures should be brought back to "Results" and "Discussion", cited while making comments. In "Conclusion", do not include bibliographical references. We must limit ourselves to drawing a conclusion about the study. It should be noted that these are villages (rural areas) and many people do not have access to drinking water, a recurring problem in most African countries, especially in West Africa. <p>You should try to add 3 or 4 recent references in the "References" section.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<ul style="list-style-type: none"> The level of English is very satisfactory 	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
