<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, author(s) have analysed based on theoretical underpinnings and this contributes importantly in the teaching and learning of geometry in the mathematics classroom, hence is important for scientific community.</p> <p>The title is good but I want to suggest the “teaching” at the end be removed because mathematics classroom involves teaching and learning. The title should be rewritten as: “Reflection on implementing geometric intuition in the junior high school mathematics classroom”</p> <p>Abstract does not contain quotation and the introduction should reflect on the title of the manuscript. This should include reflection on implementing. Yes, the subheadings are coherent and succinctly explained.</p> <p>Yes, since it is a theoretical analysis.</p> <p>The references seem not enough for theoretical analysis under reflection on implementing geometric intuition literacy to students in the mathematics classroom.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language is suitable and appropriate for scholarly communication</p>	
<p>Optional/General comments</p>
