Compulsory REVISION comments	<p>The topic of the research is practical and contemporary</p> <p>The paper overall has a good subject. It needs a major reorganization of sections and subsections as suggested in the attached Corrected and commented Manuscript.</p> <p>The abstract is adequate but does not show clearly the methodology followed Keywords are adequate</p> <p>The introduction and background are adequate but are not validated enough with references. That is, many concepts and figures need to be supported to be clearer and streamlined. See comments. Also, need to add how is this paper divided!!</p> <p>There is no methodology clearly discussed. However, Figure 1 and its model may be under it as suggested.</p> <p>The discussion is fair because it does not contain any clear evidence from the sample of reports, etc...???</p> <p>"795 firm-year observations from annual reports and other databases, show that restaurant businesses with past traits of greater size, greater leverage, greater cash flows, etc..." ?? This part is also missing?? But before we can adequately address this problem, we must first define the term "financial slack" and discuss how holdings of financial slack interact with risk mitigation .???</p> <p>Some citations are not in your ref list The conclusion is therefore not adequate...</p> <p>Limitations are not reported??? Must add</p> <p>Review carefully your references from consistency, completeness, and to match the Journal's requirements... Add references suggested in the text to validate statements and concepts, some were added to help. Add the missing citations here as well Marked in the text.</p> <p>Proofreading is needed [see suggestions]</p>
