

Review Form 1.7

| | |
|--------------------------|--|
| Journal Name: | International Journal of Environment and Climate Change |
| Manuscript Number: | Ms_IJECC_109586 |
| Title of the Manuscript: | Long Term Effect of Organic and Inorganic Manures on Rice Productivity and Major nutrient dynamics in 33 years old Rice- Rice Cropping System of Godavari Delta |
| Type of the Article | Original Research Article |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1. The manuscript presents important data on effect of organic and inorganic fertilizer on soil properties and rice straw and grain yields. The data may be useful for rice producers and researchers.</p> <p>2. The title of the article need to be adjusted to suit the content of the study. The research was conducted for just a season, the word long-term should be removed. I suggest the title read as 'Performances of organic and Inorganic Manure on Rice Yield and Nutrients Retention in Soil for Rice- Rice Cropping System of Godavari Delta</p> <p>3. The abstract is comprehensive, but needs to be re-written to the format of this journal. The T1, needs to be well defined whether is pure farm yard manure or inorganic fertilizer.</p> <p>4. The subsections needs to be aligned to the journal format.</p> <p>5. Yes, the manuscript is correct scientifically.</p> <p>7. The references are sufficient, but many of them are very old and need to be replaced with recent ones.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | Yes, the authors have used appropriate language in communicating their findings. | |
| <p>Optional/General comments</p> | <p>1. The conclusion aspect of the manuscript should capture the data on the rice yield as that of soil properties.</p> <p>2. The authors need to work on the discussion of the results. Appropriate preamble should be created to introduce results you are discussing.</p> <p>3. The pH and EC data need to be presented to support your claims.</p> <p>4. The key findings and their implications should be spelt out in the conclusion.</p> | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Are there ethical issues in this manuscript?</p> | <p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> | |
