EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. First, the authors can rename the conclusion section as 'Discussion and Conclusion' instead of 'Conclusion' only. Second, the authors need to add a few lines on the strength of this study and revise the 'limitations' section as 'strength and limitations'.</p>	<p>The discussion section is combined with the result section as "Results and Discussion" and so the conclusion section conclusion remains alone. The strength of the paper has been included and the limitation section has been renamed as limitation and strength.</p>
