If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. This article encourages participation and collaboration of the community for blood donation. Strategic teamwork and networking are highly appreciated while reporting a blood donation activity mentioned in the writing. For the scientific community, it highlights the importance of community participation and its encouragement through social media.</p> <p>2. Title is suitable for the manuscript</p> <p>3. The abstract can be made more comprehensive by eliminating the sub-headings while writing it in a summarized one paragraph. Also, starting with a brief background/introduction is recommended before mentioning the aim/rationale of the study followed by the method and concluding sentence at the end. A few grammatical errors need to be corrected.</p> <p>4. This article is properly structured.</p> <p>5. It is scientifically accurate.</p> <p>6. Most of the references are recent ones. However, in order to make it more impactful for the scientific community, it is encouraged to mention more studies with references related to blood donation campaigns at the local as well as international levels.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language quality is overall fine with the exception of a few grammatical and spelling errors which are required to be corrected prior to considering it for a scholarly journal.</p>	
<p>Optional/General comments</p>	<p>It is recommended to do a grammar and spell-check of this article before resubmission (Grammarly can be used for that purpose).</p>
