PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1) Interview schedule was used for the study; whereas, there is reference to questionnaire in the methodology. Use schedule only.2) When the total frequency (N) itself is 100, frequency data is percentage data; therefore, there is no need to mention percentage in knowledge level.	
Minor REVISION comments	<ol style="list-style-type: none">1) More emphasis should be given to correlation between socio- personal traits of the farmers and their knowledge about residue management.	
Optional/General comments	<ol style="list-style-type: none">1) The article should focus on how studying the personal characteristics can help manage residue without burning while considering whom to target, how to target etc.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
