PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It is a well-researched article judging by the extensive Literature Review. The Abstract was well-ordered. However, the confusion about research question and Hypothesis has to be clarified. This was done on the article so that the author would understand the difference. It is confusing to use both question and hypothesis as synonyms because they are theoretically and conceptually different.	
Minor REVISION comments	There are grammatically errors and suggestions that have been highlighted using colours brown and greenish-blue to make them clearer. These are indicated on the article under General Comments.	
Optional/General comments
