

Review Form 1.7

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_95202
Title of the Manuscript:	Presentations of the Acts and Products of Semigroup of Transformations Restricted by an Equivalence
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. The abstract of the article directly addresses the technical details of the article, and the authors are invited to add a discussion of the application value and technical frontiers of the article.</p> <p>2. It is suggested that the authors add a chapter on related work, discussing the cutting edge of existing work and addressing the cutting edge of this paper.</p> <p>3. What are the applications to the algebraic study of semigroups, which the authors are invited to discuss in detail in the abstract.</p> <p>4. What is the challenge of the semigroup transformation $T(X)$ problem? The authors are invited to discuss it in detail in the introduction.</p> <p>5. There are a lot of formula derivations in the article, and the authors are requested to add textual descriptions to increase readability.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. There are many special symbols in the article, please ask the author to explain the relevant meaning.</p> <p>2. The numbering of the article formulas is confusing, so please check the authors carefully.</p> <p>3. The references in the article are rather outdated, and the authors are invited to refer to more literature from 2022.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
