

**Editor's Comment:**

The manuscript presents a great contribution to the field. My opinion is that the manuscript should be accepted after **major revisions**.

*Comments*

Insert the study **hypotheses**;

The **abstract** should be self-explanatory and more detailed;

The purpose and **method** of the research should be further explained;

More details are needed of ***Soil Monitoring and Protection Mobile Apps***

**(Material and Methods)**;

**Statistical analysis** should be presented and explained;

The **discussion** needs to be more thorough and based on the recent international literature;  
In **conclusion**:

Answer the study hypotheses

Should include the future scope of the study.

The manuscript presents contribution to the field. My opinion is that the manuscript should be accepted after **major revisions**.
