EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>remove this @ from the paper, - present in the material and method the doses used for pesticides and the determination methods with references (if these are not methods invented by the authors), - use the unitary way of presenting the units of measure, currently you use 2 different methods: g ha-1 and g/ha, - present in footnotes all the abbreviations used in graphics and tables, - develop 3-4 new conclusions, including the perspective of new research, - add discussions of the results and another 10-15 new references from the last 5 years.</p>	<p>Removed @doses from material and method section because these are not methods invented by authors (Page no. 2)</p> <p>Now whole manuscript contains unitary way of presenting units of measure i. e. g/ha</p> <p>All the abbreviations used in graphics and tables presented in footnotes (for 2nd graphic it is similar as first so avoided repetition) and vice versa for table</p> <p>New conclusion points added</p> <p>Discussion added and many new references also included as possible as I can</p>
