Results and Discussion: 12th line: These findings. Pg. no.4, 1st line: and the lowest was; number of seeds-add an article and fix the agreement mistake. Make uniformity in the font style of the Bibliography, like that of the other portion of the manuscript. 	
Optional/General comments	<ul style="list-style-type: none"> Tropical fruit trees with guavas are resilient, and they surpass most other fruit crops in productivity and adaptability. Guava comprises the fourth-largest area under cultivation in India, with Allahabad producing the finest guavas in the world. The super fruit guava is a rich source of vitamin A, vitamin C, niacin, riboflavin, thiamine, phosphorus, calcium, iron, and edible fibre. The article is well-written, consisting of the Tables representing Physical and Biochemical attributes of different guava varieties.
