

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_95389
Title of the Manuscript:	Investigation on effect of zinc solubilizing microorganisms on microbial population in soil in pigeonpea [<i>Cajanus cajan</i>] on vertisol
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. Yes, the manuscript important for scientific community 2. Change as "Investigation on effect of zinc solubilizing microorganisms on microbial population in soil of pigeonpea [<i>Cajanus cajan</i>] on vertisol" 3. Yes, the abstract is comprehensive 4. Yes, it is appropriate 5. Yes, it is correct 6. References are not sufficient and not upto recent. The current manuscript works on the zinc solubilizing microorganisms on microbial population in soil of pigeonpea, important aspect in recent context. To overcome zinc deficiency in soils, these microorganisms help to retain it. The manuscript written well with tables analysed and with valid results and proper justification for results.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Quality of English is fine	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
