

Editor's Comment:

The paper no. 2022/JAMCS/95062 can be accepted by current version after minor revisions. The authors should be more careful about its grammar problems. Some minor problems should be done before its publication.

- 1) The second equation in (1.1) is wrong. " $\int_a^b u(x,t)dt$ " should be " $\int_a^b u(x,t)dx$ ".
- 2) The figures should be labelled by figure 1, 2, 3 and so on.
- 3) The title " $u(x,t)$ " should be " $u(x,t)$ " in each figure.
- 4) In Page 21, line -2, "The paper consider nonlinear ..." should be changed as "The paper considers nonlinear...". The grammar problems should be checked completely.
- 5) The reference style should be identical. The pages in [13,16,17,19] are missing.
