PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract There is really nothing there to support recent updates in the management of HIV infection. The authors have given a brief overview and comments on adherence. Authors should add adherence to the keywords, it has been the core of the abstract Introduction The introduction should give an overview/ background of the topic, hypothesis and rationale for the study (the why). I don't see a hypothesis and rationale. References: Most of the citations are more than 5 years old.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
