### PART 1: Review Comments

|                                                                                                                                  | Reviewer's comment                                                                       | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments                                                                                              |                                                                                          |                                                                                                                                                                               |
| 1. Is the manuscript important for scientific community?<br>(Please write few sentences on this manuscript)                      | Yes, the study can showcase a major potential towards large scale production of l-lysine |                                                                                                                                                                               |
| 2. Is the title of the article suitable?<br>(If not please suggest an alternative title)                                         | Title is suitable                                                                        |                                                                                                                                                                               |
| 3. Is the abstract of the article comprehensive?                                                                                 |                                                                                          |                                                                                                                                                                               |
| 4. Are subsections and structure of the manuscript appropriate?                                                                  | Yes                                                                                      |                                                                                                                                                                               |
| 5. Do you think the manuscript is scientifically correct?                                                                        | Yes                                                                                      |                                                                                                                                                                               |
| 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. | Yes                                                                                      |                                                                                                                                                                               |
| <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b>                      | It is fine                                                                               |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments                                                                                                   |                                                                                          |                                                                                                                                                                               |
| 1. Is language/English quality of the article suitable for scholarly communications?                                             | Yes, with minor corrections suggested to be kept in mind in future manuscripts           |                                                                                                                                                                               |
| <b>Optional/General</b> comments                                                                                                 |                                                                                          |                                                                                                                                                                               |
|                                                                                                                                  | Spacing and font alignment to be checked and realigned before submission                 |                                                                                                                                                                               |

### PART 2:

|                                              | Reviewer's comment                                                           | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
