However, these are my comments.

In general, the paper is okay and has been amended based on reviewer comments, However I do have some comments to improve the quality of this paper.

1) Please check again the legend label in Figure 4. I think it should be 2000, 2010, 2020 where the current Figure incorrect

2) Please also check the figure arrangement, where Figure 4 should be placed before Figure 5 not vice versa. If needed please change figure numbering or figure arrangement

Please ask author to check these 2 comments, once they amend these comments, then this paper can be published in our journal.
