PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>This manuscript explains several reasons for a mother to give birth at home, the reasons presented are more managerial in nature and people's trust in the competence of health workers. This manuscript can be used as a reference for scientific circles, although the issue remains the same, nothing new has been found in this manuscript. The title of this article fits and describes its contents,</p> <p>Yes, the abstract is quite comprehensive</p> <p>The manuscript structure is not complete because there is no acknowledgment, so that it can be added and the role of each author..</p> <p>This manuscript used a mix method design, please add what kind of mix method was used in your research. And this manuscript still needs to be completed, especially for the qualitative method used. The new manuscript explains the validity and reliability of the quantitative questionnaire while the qualitative interview guidelines used have not been explained, how to collect the data so as to avoid bias, qualitative data processing, analysis used and so on. Please author can add an explanation of the qualitative method used.</p> <p>References is quite enough</p>	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	English is good enough	
Optional/General comments	Use guidelines in writing qualitative research (please include an explanation of the method).	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
