|--|--|---|
| Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion for additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) | 1. Yes, there is a paucity of well-described cases of transient hypogammaglobulinemia of infancy and its symptoms. This case adds and contributes to their study. 2. Yes 3. Yes 4. Yes 5. Yes. However, I missed a discussion about extrinsic and extrinsic Atopic Dermatitis. I recommend reading the article: 6. Olivier CE, Pinto DG, Teixeira APM, Santana JLS, Santos RAPG, Lima RPS. Intrinsic Atopic Dermatitis: Titration of Precipitins in the Screening of Food Allergens for Prescription of Elimination Diets and Desensitization Strategies. 2(6), 1-9. European Journal of Clinical Medicine, 2021; 2:1-9. link | |
| Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications? | Yes | |
| Optional/General comments | | |
