PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes. Mistakes are marked by red.</p>	
<p>Optional/General comments</p>	<p>In this study through ethnobotanical approach potential for local use of Zingiber album Nurainas among Zingiberaceae family determined. Information about traditional uses of Zingiberaceae family collected through literature review. The data was then analyzed quantitatively using the ethnobotanyR package in the R Studio software and visualized using a flow diagram with the ggalluvial formula. From the research, it was found that the local use of Z. album as a vegetable and traditional medicines, namely the medicine for swollen uterus after childbirth, abdominal pain, internal heat. The review concludes that potential use of Z. album among other species in the Zingiberaceae family in West Sumatra indicates that this species is in the category of low importance.</p> <p>Review article is very well written. Recommended for publication in the journal after minor corrections.</p>
