Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1 The manuscript is important for the scientific community. 2 Yes however, the title needs some modifications i.e Influence instead of Determine 3 The abstract of the article comprehensive, however there is a need for tense editing 4 Yes 5 Yes 6 Yes but Kumari et. Al is not an adequate source of reference The choice and interpretation of result are a little unclear eg caste (socio-cultural status if you hope for international interest), education, family type, family size, and education all not relating to mensuration. Does it mean education influences females' ability to menstruate?	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes however there is a need for some editing	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
