Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. This article provides important information concerning the effect of molybdenum and sulphur on growth and yield of summer black gram (<i>Vigna mungo</i> L.);</p> <p>2. The title is adequate to the content of the article;</p> <p>3. The abstract of the article is well written, adequately explains the research setting and issues;</p> <p>4. The Introduction gives a suitable description of the addressed problem and it shows the significance of the research problem, but is scientifically limited. The methodology used is appropriate to the purpose of the research; The results are interesting and important to researchers in relevant fields of agriculture, but for the publication of this study, I recommend supplementing it with other determinations to support its importance and opportunity;</p> <p>5. The purpose or goal of the work is within the journal's scope. I recommend relating the results obtained from this study to other similar studies, a very important aspect to support the results obtained;</p> <p>6. The number of references is limited and some corrections need to be made. I recommend the inclusion of a larger number of more recent studies on the subject and their insertion in bibliographic references;</p> <p>However, corrections should be made in order to publish the article. Please, take into account the following recommendations to improve this manuscript:</p> <ul style="list-style-type: none"> - The general presentation of the manuscript should be reviewed, the extra spaces between words or the lack of spaces between titles, subtitles, tables and text according to the requirements of the journal; - I recommend a revision of the manuscript according to the requirements of the journal (English, technical editing, bibliography, etc.); - I recommend a critical approach to the literature to enable analysis and interpretation of the information, development of an objective viewpoint and the setting of clear objectives; - The presentation of the results obtained from this study is very short, without reference to other studies with similar results and I recommend a review of this issue; - I recommend that conclusions be formulated highlighting the importance of the results obtained; - The presentation of the Conclusions is very short. <p>Based on the above mentioned, I recommend this paper for publication after performing the suggested corrections.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	I recommend a carefully check of the full manuscript to correct any grammatical or syntax error.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
